the purchas	preaches early enough to implement controls. An example was given on the purchase of PPE and hand sanitiser recently which all schools and centres did urgently but the aggregated cost may breach the threshold.				
 Annual Financial Statement - a discussion took place on the AFS which has been examined by the Finance Committee and has been approved fo adoption. The committee was happy that all efforts have been made to stay within the allocated budget but that the growth of numbers in students and learners is putting schools, centres and Head Office unde enormous pressure. The Board unanimously adopted the Annual Financia Statement. 				en approved for e been made to of numbers in ead Office under	Proposed: Cllr Ka Ahmed Seconded: Cllr Jo Newman

DDLETB had approximately \pounds 14.1m on hand at the end of February 2020. The additional funding issued by DES relating to 2019 has reduced the long-standing deficit on ONP to circa \pounds 3 m. The Main Scheme Non-Pay spending limit for 2020 is \pounds 8,693,306, an increase of 3.6% on 2019. Insurance costs, contracted cleaning and the costs arising from the additional new students and extra school facilities means that DDLETB will incur a deficit of circa \pounds 300 K in 2020.

4. Overdraft request

5. CEO's Business

An overdraft facility was approved in the amount of 10 million euro. This provision is being made to ensure that there is a sufficient cushion to allow for cash to be paid over to ESBS for payroll early if needed prior to receipt of grant from the Department in the event that the shutdown causes unexpected delays in transfers.

Proposed: Cllr Yvonne Collins Seconded: Gerry McGuire

1

A. Meeting with Department of Education and Skills Post-Primary Administrationfollowing the last ETB meeting, DOSD Debbie Howlett and I met with Principal Officer and team in Athlone. We were successful in being allocated relief in recognition of our circumstances as a growing ETB with very many pressures. We have been given approval to hire replacements for retiring or resigning staff. We have approval for two new APO posts, and two grade 4s and two grade 3s. There is also recognition that our budget is low considering the growth we are dealing with. Separately a proposal from the Building Unit in the DES acknowledges that ETBs require Project Management expertise. ETBI has been given the task of setting out a scope of works for a contract to hire in Project Management expertise. We expect this will improve our capacity to respond to the huge demands of our current building programme.

B. The Festival of Music took place on the 10th March. There is no doubt that the Covid -19 affected attendance. It was the last event before the schools were told to close. It was very well received by an enthusiastic audience. Huge credit is due to Paul Kingston and Carmel O Neill for arranging the concert and ensuring that everything ran smoothly in auditions and on the night. They had a large and dedicated team as usual and we are grateful for all the additional effort of our music teachers in making this an annual event worth waiting for. **Commented [PL2]:** This appears to me to be at the wrong spot-the proposer/seconder is for the overdraft request I presume

C. Most of the recent weeks has been dominated by the Covid-19 scenario. We are delighted that the response of our staff in schools, centres and services has been so extraordinarily professional and pertinent. Learning opportunities for all have been continuing and our ICT team and TEL staff have ensured there is great guidance available as well as technical support. Staff have risen to the challenge of working from home and keeping students and learners focused.

The Director of Schools for post-primary Adrian Flynn:

1. Email of thanks and guidance sent to all teaching staff from Adrian

2. Admissions

Deadlines and process as outlined by the Minister below:

- Prepare a draft Admissions Policy by end of March 2020
- Submit draft to Patron for approval by end of April 2020
- Reconsult re any modifications and return to Patron for approval by end of May 2020
- 3. CP review
 - March-June
 - DLP/DDLP Confirmation
 - Risk Assessments
 - Safeguarding Statement

4. BoMs

BoM cluster training is on pause for the moment. Plan being devised by DoS (Adrian & Nichola) for essential training to be deployed.

- 5. Principals' survey
 - Platforms of Engagement with Learners
 - Communication methods with all stakeholders

6. Supporting continuity of T & L at PP

Microsoft Office 365 is the DDLETB platform of choice and is currently available to all school communities.

Commented [PL3]: Did we write to these to thank them? also is there someting we do to say thanks? Conscious that Paul no longer an employee

structures to support this work. Our goal is to support learners and staff through this situation.

• The QA Unit hosted a conference for the chairs of the Results Approval Panels (responsible for the approval all results) across the 38 FET centres. A training session for all FET QA Coordinators in the new common QA documentation was delivered. This will be particularly important in the current situation as we move into the assessment cycle for many courses which is being done remotely.

• New Professional Development opportunities with regard to online teaching and learning are being identified, and sent out to teachers and instructors, to support them and learners in the current situation.

• DDLETB is an active member of the Dublin Regional Skills Forum alongside other Further & Higher Education Institutions and Employer Representative Bodies. DDLETB has developed a *Partner Engagement Plan* for 2020 which focuses on communication, information sharing, enterprise engagement and collaboration with Higher Education and Employers. This will be very important in responding to those who have become unemployed. Our Training Centres, in the first instance, are working on a plan to respond locally.

• DDLETB have given feedback to the *Future FET: Transforming Learning 2020-2024*. The Strategy sets out a vision for FET's development over the next 5 years based around three pillars of *skills, pathways and inclusion*. Our response to this Strategy will be aligned to our DDLETB strategic goals.

The Director of Schools for CNS, Oberstown and Youth Services reports as follows:

Youth Services-sports and community centres are closed either by the County Council concerned or by us. Remote working is happening for youth groups across our ETB area. Foroige has made its courses available online which is very helpful.

In relation to Alternative Learning Programme (ALP) venues, our Youth development Officer. Reports that an online learning platform "Seesaw" is being used by these tutors for pupils, in addition to their contingency plan which was a phone call with pupil every morning/afternoon and work given. This is staying the same but work given online and immediate feedback/teaching during their normal hours. Her tutors received videos for setting up as soon as they can.

PrimaryDDLETB CNS Principals met the week before the closure. A checklist and feedback template were given to them for contingency plans for teaching and learning on closure. The checklist had been put together by Post Primary Principals which was usable at Primary but slightly adapted. Each school held meeting with staff and completed the template and a plan which was sent onto Director. This plan was for short-term closure (2-3 weeks and longer, if possible).

• Review of each school context and feedback on progress was discussed between Director and each Principal and/or their IT coordinator last week and a consistent elearning platform, SeeSaw, is now being rolled out in <u>all</u> CNS schools in DDLETB, ensuring parent, teacher and student are engaged. This was already running in some of the schools so we are just spreading the expertise. Training has commenced and nearly complete with schools ready to all move next week and earlier if ready. It's very simple, controlled and pupils, parents and pupils engage well with it.

• DDLETB have been closely linked in with 1:1 school in Italy, learning from their experience, looking at their model. A series of webinars with these Principals and teachers have been hosted by them for our schools last week. This took place with IT coordinators and Principals at both Primary, PP and FET. This has been very beneficial, especially as we roll one common platform out among all our CNS schools - ensuring online engagement is closely aligned with best practice (Some schools were already using SeeSaw but this was an opportunity for a consistent platform across all our CNS schools. These teachers are linked in with other CNS schools now using it).

• Currently, an on-line support forum is being set up among CNS schools, pooling together of resources and assistance/mentoring models within schools and across our schools is underway. These resources will be uploaded to a shared Microsoft Sharepoint, mentoring/pairing/grouping starting in-school first. IT Coordinators will look after the pooling of resources for all schools.

• Principals are linked in with Nichola on Teams for a weekly check-in meeting every Friday at 10am, structures are now being set in place for IT coordinator support and teacher support across all our schools, with <u>schools taking the lead and working together</u> - similar sized schools working together, yet all coordinators linked together sharing practice/troubleshooting.

• Feedback from principals this morning regarding parental uptake was very positive all round. All Parents at the start of this process have received an outline of what work is being allocated, timetables and how they communicate with each class

Section 4529600
 Se

teacher. This was consistent across all CNS schools and in the contingency plan. This is obviously evolving as the needs/family contexts play a huge role in pupil's engagement in learning at home.

• Surveys regarding access to technology/devices were sent home by schools who were unaware of access already. Where there is no Wifi/engagement, these families are engaged with 1 to 1 by class teacher or Principal. Technology is not to be forced, according to the Italian experience. Hence, we meet the needs of those pupils.

• The expectation set is for feedback/correction to be given during the school day, all parents are to be contacted by class teacher/Home school or support teacher or combination, either by phone call/email - our disadvantaged pupils is by phone call: So far pupils engagement is very high.

• Guidance/advice was shared among schools around the structures of lessons, via video format, the importance of focusing on pedagogy and learning outcomes throughout. Examples shared among schools. Activity based lessons with AFL, AOL clearly demonstrated and tangible using SeeSaw.

• Concerns were raised by Principals regarding support teachers and how they would continue their role? They are linked with a class teacher or 2, depending on size of the schools and both teachers are responsible for the content, although guided by class teacher's planning/overview.

• <u>ASD classes:</u> We are currently closely linked in with NCSE as we have a Special School, pupils aged 6-18. NCSE have agreed with Principal that they will give their advisory visits over to assisting with on-line learning platform, using SeeSaw and in line with what we are delivering at mainstream. This is in motion, so will be interesting to see how this pans out.

• Regarding Principal and Staff - all staff in all schools are on Outlook 365, Sharepoint and teams. Teams for the Principals and staff is currently being done by our IT Dept, this morning.

• <u>Detention and Care facilities:</u> Moodle is the platform here for all 3 detention and special care facilities moving forward. Webinars have already been put together by FET for teachers and webinars will be put together for the care staff in logging the pupils in securely. Planning for Moodle is on track to operate from Easter break onwards.
